Bacterin Awarded Approved Vendor Status for American Medical Concepts' Network of Hospitals in the Northwest U.S.

BELGRADE, MT, – October 24, 2011 – Bacterin International Holdings, Inc. (NYSE Amex: BONE), a leader in the development of revolutionary bone graft material and antimicrobial coatings for medical applications, has been awarded approved vendor status by American Medical Concepts (AMC), the largest multi-specialty Orthopedic, Spine and Neuro distribution company in the Northwest region of the U.S.

The award gives Bacterin 'pre-approved,' ready-access to market its full portfolio of products, including the existing Cranio-maxillofacial (CMF) line of orthopedic implants as well as the pending sustained release antimicrobial coatings and device implants, to AMC's entire network of hospitals and freestanding surgery centers.

"Our pre-approved status with AMC opens the door to a leading healthcare delivery network that is dominant in the Northwest. We are pleased to partner with such a prestigious group as AMC to distribute our current and future products," said Guy Cook, Bacterin's chairman and CEO.

Rob Goodman, co-founder of AMC, commented: "We're excited to add Bacterin into our portfolio of products, and we expect Bacterin's products to be well received by our accounts across the region. This includes Bacterin's QuickScrew™, their unique pre-loaded surgical screw delivery system for CMF procedures, which provides a new level of speed and convenience during surgery."

Added Cook: "For more than 20 years, AMC has been dedicated to providing the best patient care by delivering quality equipment and medical supplies. Their endorsement is a strong validation of our current biologic portfolio and future product pipeline."

About American Medical Concepts

American Medical Concepts, Inc. distributes orthopedic and spinal implant devices in the Northwest United States. The company provides medical, surgical, prosthetic, and orthopedic devices for the spine, knees, hips, trauma and biologics. The company was founded in 1992 with its main distribution center in Portland, Oregon. AMC has offices in Portland, Seattle, WA, AK, ID and HI and runs its financial services in Eugene, OR. For further information, please visit www.americanmedical.com.

About Bacterin International Holdings

Bacterin International Holdings, Inc. (NYSE Amex: BONE) develops, manufactures and markets biologics products to domestic and international markets. Bacterin's proprietary methods optimize the growth factors in human allografts to create the ideal stem cell scaffold to promote bone, subchondral repair and dermal growth. These products are used in a variety of applications including enhancing fusion in spine surgery, relief of back pain, promotion of bone growth in foot and ankle surgery, promotion of cranial healing following neurosurgery and subchondral repair in knee and other joint surgeries.

Bacterin's Medical Device division develops, employs, and licenses bioactive coatings for various medical device applications. Bacterin's strategic coating initiatives include antimicrobial coatings designed to inhibit biofilm formation and microbial contamination. For further information, please visit www.bacterin.com.

BELGRADE, MT, – October 24, 2011 – Bacterin International Holdings, Inc. (NYSE Amex: BONE), a leader in the development of revolutionary bone graft material and antimicrobial coatings for medical applications, has been invited to present at the Singular Research's Sixth Annual 'Best of the Uncovereds' Conference. The conference will be held at the Luxe Sunset Boulevard Hotel in Los Angeles, California.

Bacterin's chairman and CEO Guy Cook is scheduled to present on Wednesday, October 26, 2011 at 2:30 p.m. Eastern time, with one-on-one meetings held throughout the day. Management will discuss the company's business plan and objectives for the remainder of 2011.

The presentation will be available via webcast at <http://www.singularresearch.com/>.

A replay link will also be available for 90 days following the live presentation on the company's website at www.bacterin.com.

Bacterin reported record revenue for the second quarter 2011 of \$7.5 million, up 25% sequentially and 135% year-over-year. These results also drove its first positive EBITDA quarter.

For more information about the conference or to schedule a one-on-one meeting with Bacterin management, contact your Singular Research representative.

About Singular Research

Singular Research aims to be the most trusted supplier of independent, trusted, single-source research on small-to-micro cap companies to the small-to-medium sized Hedge Fund manager. Singular's analysts research companies that are typically not covered by any other firms. Analysts are compensated based on the accuracy of their research calls not through trading commissions or investment banking fees. For more information, visit www.singular-research.com/index.htm.
